

Jimmy Morales

RESUME

PHP/REACT DEVELOPER

PROFILE

I love to write code in a high-paced and challenging environment with an emphasis on using best practices to develop high quality software that meets project requirements, budget, and schedule. I enjoy learning new technologies and sharing findings with his colleagues.

SKILLS

EXPERIENCE

LARAVEL DEVELOPER - MAR. 2022 – AUG, 2022 SHEDPROJECT

I worked as a laravel developer to complete the project.

It was logistic system which has complex structure, but I handled them with high quality. And client was satisfied with my work.

Used Skills, Website, Project manager:

- Laravel 9.x with blade template. Bootstrap 5.0, HTML, CSS, JS
- <https://demo.shedcomplete.com>

NEXTJS/LARAVEL DEVELOPER – OCT, 2020 – MAR, 2021

I worked as a senior developer in that company and built the site from scratch with NextJs/Laravel. The project was to build the site to interact teacher with students in the same board and can do many multiple things such as rewards, feedback, uploading PDF and WebRTC.

Used Skills, Websites, Project manager:

- Next 12. Laravel 9.x, TailwindCSS, NodeJs, Javascript (paperjs, socket), TypeScript, GraphQL, Prisma

REACT DEVELOPER – DEC, 2019 – SEP, 2020 KANDA SOFTWARE - EASTEND PINE

I worked as a frontend developer in Eastend company, and built the real estate website with React in frontend and PHP in backend.

The site is designed similar to airbnb, and made all pages myself based on figma design.

Used Skills, Websites, Project manager:

- ReactJs, CSS, Bootstrap 4, TypeScript
- <https://pine.eastend.dev>

● **LARAVEL/BOOTSTRAP DEVELOPER -SEP. 2018- DEC, 2019**
SEAWAYEXPORT

I worked as a laravel/bootstrap developer to complete the project.
It was logistic system which can add dispatch, order. Inventory and make invoices.

Also using automation with CURL, the dispatch data is auto uploaded into central disptach (<https://www.centraldispatch.com>).

Also with chrome extension, it enables to take part in copart auction with the same account.

Used Skills, Website, Project manager:

- Laravel 6.x with blade template. Bootstrap 4.0, HTML, CSS, JS
- <https://seawayexport.com>

● **REACT/.NET DEVELOPER – FEB, 2020 – JUL, 2021**
PIMSPPOINT – CONTRACT REMOTE

I worked as a wordpress developer for the landing page only and asp.net for the other pages such as vendor, admin portal in that company.

Also, using Javascript, I made the same functions as docusign.

Used Skills, Websites, Project manager:

- WordPress, Asp.net, Javascript, CSS
- <https://pimspoint.com>

● **PYTHON/CAKEPHP DEVELOPER – MAR, 2016 – JUN, 2018**
ATOS - AMATOPIA

I worked as a full stack developer in amatopia company, and built the full amazon scrapping websites.

For the amazon scrapping, 50 PCs are connected in a pipe line and make the cronjob and scrape the data from amazon we want.

Used Skills, Websites, Project manager:

- CakePHP, Console, AWS, C#
- <https://amatopia.jp>
