SUMMARY

I am a frontend developer with 3 years of experience in web application development. I have been involved in all stages of the software lifecycle, collaborating with other teams to analyze, design, and implement the necessary software, always considering scalability. My focus is on creating high-quality and high-performance web applications using the latest technologies and industry best practices.

SKILLS

JavaScript | TypeScript | ReactJS | React Native | VueJS | NodeJS | NextJS | CSS | RSC | TAILWINDCSS

EXPERIENCE

IDAT
React Native Teacher (Part-Time) | March 2023 – CURRENTLY
I teach students to develop mobile applications with React Native, adapting my teaching methods to meet their individual needs. We also successfully develop and deploy apps on app stores.

Data Trust
Frontend Developer | January 2023 – March 2023
We developed as a team an online exchange house in the estimated time with JavaScript, Vuejs, ReactJS, PHP and Laravel.

Seaway Export
Fullstack Developer | November 2022 – December 2022
